Texas Risk and Authorization Management Program Certification

The information below is provided as a companion to the TX-RAMP Certification.

Cloud Service Name

Highwire, Inc.: Highwire Software System

Cloud Service Provider URL

https://app2.highwire.com

Cloud Service Description (200 words or less)

Highwire's trusted Safety and Financial Software is powerful and configurable and allows asset owners to dynamically collaborate with contracting partners - before, during, and after the construction of Capital Projects - to mitigate risk and ensure great outcomes. Highwire's single SaaS platform allows enterprises to discover high-potential contracting partners, identify risk areas, and predict and correct evolving risks in real-time.
